Trace Laboratories, Inc. Expands Training Capabilities– *posted Oct. 1.09*

Carthage, IL: Trace Laboratories, Inc., a global leader in independent testing, analysis, and qualification services, announces the expansion of their services to include OSHA General Industry Safety Courses (10 and 30 hour). As of Oct 1, 2009 Trace Laboratories will expand its services with the addition of the OSHA training classes. Trace's staff includes an authorized OSHA Training Institute General Industry Outreach Trainer. Our trainer is also a Certified Safety Executive / Registered Safety Director with the World Safety Organization. He has over 30 years experience of manufacturing background and utilizes this experience in the classroom to add the sense of reality. This expands upon Trace Laboratories already existing capabilities which include design and build of assembly and test equipment, testing services, software development, etc.

Trace Laboratories continues to expanded its services with a commitment to training, the research and development of new concepts, software, components and designs to improve competitiveness, accuracy and reliability of test and production equipment in a standard / universal format. They will provide complete testing solutions for OEMs and their suppliers.

For more information about Trace's new capabilities, or for information on any of Trace's full range of independent, internationally accredited testing capabilities, please contact: Trace Laboratories, Inc. Phone: 217-617-4306. Email: info@tracelabs.com. Web: www.tracelabssolutions.com
